## Product / Service

We are creating a gadget and an ecosystem of remote technical support. We reduce the cost and time for setting up any equipment without a physical presence. Sunny works when & where TeamViewer can not.

## Market

**PAM:** IT services market revenue in the US - **\$321B**;  
**TAM:** Software and BPO Services is around 38% = **\$122B**;  
**SAM:** **\$15B** IT support US 2020;  
**SOM:** We are planning to take 10% from SOM **\$1.5B** by 2026.

## Key success factors

1. Existing model from real business
2. Very strong engineering and experienced BizDev team;
3. Unique technologies, more than 40% innovations;
4. The growing market of remote services (COVID-19).
